【ケベック州】

（26日）13時、ルソー州首相は定例記者会見を行ったところ、同要旨は以下のとおり。

- 死者が2名増え、ケベック州では累計8名。陽性者は1629名（前日比290名増）、入院者は106名（前日比28名増、その内43名が集中治療者（前日比8名増））。なお、ケベック州は世界においても10万人当たりの検査数が最も多い地域であることを付言する。
- マスクが今後不足していく可能性がある。使用は真に必要なときに限るように要請する。
- 昨日、トルドー首相が発表したとおり、現下の状況により職を失った者や財政難に陥っている者などに対して、月額2000加ドルが4月6日から支給される。他方、それまでも困難に陥る者がいる。これを受け、ケベック州政府は、州内に存在する約30のフードバンクに資金供与することで困難に直面する州民の食料安全保障を確保。
- フードバンクに限らず、メンタルヘルスや高齢者・障害者支援団体などのコミュニティ団体の重要性は日毎に増しているが、ボランティア不足に陥っている。かかる状況を受け、ケベック州政府は、コミュニティ団体が登録でき、また、ボランティア活動を希望する州民が志願できるポータルサイトを設置（<https://www.jebenevole.ca/>）。70歳以下であり、健康なケベック州民で余裕がある者は是非協力願いたい。既に多くのボランティアが活動しており、深く感謝する。もっとも、コミュニティ団体は十分に対人距離確保や頻繁な手洗いなどの指示を遵守してもらいたい。

(2)(26日)現地13時半、州主任保健局長が記者会見を行ったところ、同要旨は以下のとおり。

- A) Still only 5 cases in PEI, with the first case initially announced having recovered and being out of self-isolation (while still social-distancing). The remaining 4 cases are at home self-isolating with mild symptoms.
- B) The 2 cases announced yesterday came to PEI via NB and Halifax respectively, each by private vehicle. The amount of details in information shared about cases will shift; only specify whether they are one of 3 types: 1) International travel, 2) Interprovincial travel, or 3) Community spread, because PEI is a small and tight community, to respect privacy of individuals. Flight information of cases will still be posted online, per national coordination.
- C) Yesterday, authorities started following up on complaints about persons violating self-isolation order. If there are concerns, please contact authorities via the 1-800 line (do not use 911).
- D) The essential services list has been updated to be consistent with other lists across the country. A decision regarding school closures is expected by the end of this week based on epidemiology.

- E) The initial closure of Government-owned liquor stores was discussed because it was felt the media may have misrepresented the facts. This was a temporary measure made to give the stores time to put safety and sanitizing measures in place for staff and for the public; there was never any intention to cut off access to alcohol as agency stores and breweries remained open during that time.
- F) The importance of staying at home, self-isolating, and social distancing when going out for essentials or fresh air was repeated. Health PEI's Marion Dowling said that when calling for assistance, it is important to inform Health PEI of any ongoing self-isolation situation and travel history to protect healthcare staff and others.
- G) The NESS mini-clinic mentioned yesterday is in the process of being set up, should be ready in the next day or so. It will have a "Cough and Fever" clinic for Islanders. Information on clinic location and access will be available tomorrow. Telephones and emails are being set up before the announcement. NESS mini-clinic will enable PEI to do more tests, see more people with symptoms, and keep them out of ER.
- H) The Charlottetown testing clinic is being moved to a drive-thru option.
- I) Approximately 100 retirees have been relicensed (physiotherapists, nurses, support staff, physicians, etc.) They will be paid via the casual workforce agreement.
- J) There was a question requesting an update for shared-custody/co-parenting families; PEI is also consulting counterparts in Family Law and will make consistent advice (which will have to be adjusted case per case) available online eventually.
- K) Pregnancy, prenatal care, and post-natal care was very broadly discussed. Health PEI's Marion Dowling mentioned obstetric groups have centralized their clinic support to be more flexible with the types of care they can offer during the pandemic, and that there is guidance in place which depends on the family's particular situation. It was stated that nationwide, the percentage of cases in ICU is currently at 2.6%
