Mandatory Vaccination Policy Details

October 15, 2021

Today, the Government of Newfoundland and Labrador provided details of its [Mandatory Vaccination Policy](#) that applies to public service employees in core provincial government departments, as well as agencies, boards and commissions. The policy is being implemented in an effort to ensure continued safety in the workplace, as well as to ensure additional health protection for all Newfoundlanders and Labradorians.

By December 17, 2021, all provincial government employees are required to be fully vaccinated against COVID-19 or have an approved medical exemption. In addition, all new hires on or after December 17, 2021 are required to be fully vaccinated at the time of their employment start date.

Government will also be mandating COVID-19 vaccines for some employers beyond the core public service to come into effect on December 17, 2021. Places where employees and volunteers will have to be vaccinated include:

- Long-term care facilities
- Personal care homes
- Assisted living facilities
- Community care homes
- Businesses that employ members of regulated health professions
- Community agencies that provide supports to vulnerable populations
- Private health care clinics
- Fire departments
- Ambulance services
- Home care provider agencies
- Regulated child care providers
- Schools/Post-secondary institutions
- Anywhere the NLVaxPass is required for entry
